LYNX 2100LB
FAST PARTS INEXPENSIVELY
WE HAVE A PACKAGE DEAL FOR UNDER $91,500
SMALL FOOTPRINT, MASSIVE PRODUCTIVITY

DN SOLUTIONS

LYNX 2100LB SERIES

6" High Performance Compact Turning Center
The newly designed Lynx 2100 2-axis horizontal turning centers have a small footprint but deliver huge productivity gains. The machines are tough, reliable and get down to business fast.

Chuck size 8 inch
Max. Turning Diameter 14 inch
Max. Turning Length 22 inch

Superior Machining Performance
- Equipped with a 15kW high-power motor
- Max. Turning Diameter : 300mm /
- Excellent cutting capability

Highly Reliable
- Low vibration/noise spindle
- Servo-driven turret
- Full slideway cover to prevent leakage and chip ingress

Improved User Experience
- EOP (EASY OPERATION PACKAGE)
- Grease type lubrication
- Rear side dual-purpose chip conveyor

Package includes:
- Lynx 2100LB Series ..... NOW $88,900
- Tooling Package $2,450.00

TOTAL SPECIAL DISCOUNTED PRICING $91,350.00

LYNX 2100A
A COMPACT CNC LATHE BUILT FOR PRODUCTIVITY WE HAVE A PACKAGE DEAL FOR UNDER $72,500
SMALL FOOTPRINT, MASSIVE PRODUCTIVITY

DN SOLUTIONS

For machine shops and manufacturers looking to increase production capacity without sacrificing valuable floor space, choosing the right CNC lathe can make a significant difference. The DN Solutions **LYNX 2100A** CNC turning center combines a compact footprint with high-speed spindle performance, rapid axis movement, and automated turning capabilities to help manufacturers produce precision components efficiently.

Available through **APT Machine Tools**, the **LYNX 2100A** is designed for shops that need dependable CNC turning for recurring production runs, precision components, and a variety of industrial applications.

With a 6-inch chuck, a maximum turning diameter of 14 inches, a maximum turning length of 13 inches, and spindle speeds up to 6,000 RPM, the **LYNX 2100A** is built to handle a broad range of suitable small- to medium-sized turned parts.

Whether you're expanding an existing machine shop, bringing outsourced machining in-house, or looking for a more productive alternative to manual turning, the **LYNX 2100A** is worth considering.
