

MACHINE TOOLS

PARTS & SERVICE

When one of your machines goes down, APT's goal is to have it up and running as quickly as possible. Our field service vehicles are filled with over \$75,000 of tools to make sure a repair is done properly and the service technician has the proper measuring devices to verify the job was done within required specifications. All of our technicians have been certified by the manufacturers we represent. A salesperson might sell the first machine, but service sells every machine after that. We strive to maintain having the absolute best service department in the industry to serve your needs.
