

2026

TARGETED DEAL

Grooving

Redefining stability

Featuring
Groov-tec™

One, two, or four cutting edges to maximize productivity

- Four systems for parting off, grooving, copy turning and groove turning
- GD System - Universal "go to" double serration system for grooving, groove-turning, and parting off
- MX System - Tangential arrangement enables outstanding flatness and surface quality
- DX System - Patented parting-off system, ideal for Swiss machining
- SX System - Deep grooving and parting off with internal coolant

Initiative Details

Purchase qualifying number of inserts in the corresponding system and receive the tool holder free! Offer ends June 30, 2026

Use offer code **BO_001**
